OBJECTIVE

To obtain a position as a frontend developer where I can utilize my skills and experience in creating responsive, accessible, and optimized web applications and contribute to the growth of the company.

PROFESSIONAL EXPERIENCE

Software Engineer at Altir, Hyderabad   April 2023 - Present

- Working as a frontend developer to fix bugs in the deployed version of the project

Senior Systems Engineer at Infosys, Hyderabad   July 2022 - March 2023

- Worked as a frontend developer to improve and optimise a client's dashboard adhering to agile methodology
- Created and implemented a feature using React JS that improved dashboard usability by 60 percent
- Debugged, tracked bugs, improved code coverage and resolved code inefficiencies in deployed version.

Systems Engineer at Infosys, Hyderabad   April 2021 - July 2022

- Translated wireframes into clean, efficient, and well-documented Angular code
- Integrated with backend APIs to ensure seamless functionality
- Delivered successful code into production, receiving positive feedback from the client.

Systems Engineer Trainee at Infosys, Mysore   November 2020 - March 2021

- Involved in the development of a project that gathers data from Cisco devices and triggers alarms
- Developed an interactive table to display alarms and their severity in a graphical format
- Utilized technologies such as Angular 9, Spring Boot, MySQL, and Git to develop and maintain the project.

PROJECTS

Netflix Clone With IMDB Features — *React, Hooks, Redux Toolkit, Material UI, Alan AI, TMBD API, Netlify*

- Built a comprehensive Netflix-like platform that incorporates key features of IMDb, such as movie and TV show information and ratings
- Utilized Alan AI to add voice control capabilities, allowing users to interact with the platform hands-free
- Utilized React, Hooks, and Redux Toolkit to create a seamless user experience with dynamic and interactive components.

SKILLS
